Cloudy a little rain.  
Evening, clear, cool.

This morning I  
spent most of the time  
as usual writing Xmas  
letters.

In the afternoon I  
went up to 80 Sparks St  
and made a long  
call on Mary & George.

Stover & Mrs. Elizabeth  
Allen called this P.M.  
while I was out, much  
to my disappointment.

This evening more  
writing and some  
reading.

Dr. Robinson told me over  
the phone that it had been  
about settled, as to Rhodora,  
to bridge over the present  
by pledges from willing  
members. I feel that  
this is the way. There should  
be a larger list of subscribers.

Clear cold.

This morning drove (Gamble) to Harv. Sq. and did some business at the Trust Co. Then electric to Dr. Briggs.

I was fixed up there and also had two X-ray exposures on a dead tooth. Back to Harv Sq to the Trust Co.

Then I walked home slowly & enjoyed it.

This evening to the Club by electric. I drove home with E. F. Williams & also

The illustrative talk by Dr. Eugene T. Wherry of Washington D.C. on "A new method of studying Soil Reaction in relation to Plant Distribution, with practical Demonstrations." Extremely interesting. I should like to try it. Series talk on "future of Rhodora" by B. L. R.

Clear, cold.

Most of the day has been spent writing, letter and planning to friends.

This morning, I drove with Lucy & they to Hart Sq. where I went to the Cosmos Press and arranged about the labels for Miss Purdie's Cakes.

May went to a dressmaker and Luc, & I drove up to Waverley & Belmont for a turn of fresh air.

Meanwhile, I sat by the parlor fire and read from Fabre's "Glow-worm and other Beetles".

The story of the Glow-worm or Firefly. It is a very wonderful tale in every way and I shall enjoy the rest. I had a good talk with Mr. Sprague. He saw Ens this way & reports him as remarkably well.

I have been to the  
Theatre at Newland!!  
It was very delightful.  
Right present. I sat  
at Ned's right.

All were bright and  
the evening passed  
pleasantly -

I drove both ways  
with Sambel's car  
and took Harry Spel-

Evening cold and  
clear - I think the  
change did me good.

I have been at home  
to-day as usual.

I feel my rheumatism  
melt in my right knee.  
But I move about over  
the house rather slowly.  
I stood the going out  
last evening very well.

I have written a  
number more letters  
to-day. Joseph Rose  
has named a new boy  
for his brother Walter Deane  
I have written him.  
Walter Deane would  
be 22 yrs. old, Jan. 6.  
It was a sad, sad death  
and so unnecessary.

I had a letter to-day  
from Dr. Zvainad in  
re the *Viola blanda*.  
He says I can settle it  
with a compound microscope!!

This P.M. Miss Brown slipped half way down the front stairs & went to the bottom. I rushed to my study & found her spread on her head & two feet up!! Great noise - she was out a little funny. Coolly brushed. See grabbed the banister; part way!

At home as usual.

Read, worked on my Paris cards from Jack Wright - won letters. Finished Fabre's Glow-worm and other Beetles - It is a wonderful account.

J.R. Churchill came out at 6 P.M. and we had a very good time, talking and looking over plants &c &c

I have been reading the Laski Lampoon. I think Laski should leave the College, but I do not think the satire in the Lampoon helps.

May Dexter and Frances Johnson called this P.M.

I wish my troubles would hurry up & go.

Clear, very cold,  $-8^{\circ}$ F. this Morn.

I spent the morning over Jack Wright's Paris cards and thoroughly enjoyed. They are almost entirely Victory Fete cards and bridges & the flood of January, 1919. There are, I know, almost no duplicates.

Miss Brown & I went in to Burton Holmes' "Allies on the Rhine" at Symphony Hall. Porter Sta Garage to & from Harvard Sq.

The affair was very fine & instructive. The views were superb, intermixed with moving pictures. The views of the river, the castles, the vineyards along the Rhine & Moselle, the Cross, the Stars & Stripes flying over Castle Ehrenbreitstein all were splendid.

Evening at home by the fire.

He staid a while and as  
all were leaving, Aldrich  
Taylor & Marion called.  
We had a very nice time  
with them. They staid to

The history cards & the flood of Jan, 1919, of course are all new, and of the other bridge cards only 95 are duplicates, and probably 10 can be used to illustrate some building from a new point.

I am much pleased and shall write Jack

I am reading a history of the late West by Usher. It is very simply & interestingly told. It has many illustrations.

Terrific snow storm

Evening at work at home.

Clear, cold growing warmer.

This morning I went by electric to Boston and took to Hollier's some serials Comora (2 vols for one), Fern 7 min (1) Torrey (2), Bird hole (2).

I left a roll of  $2\frac{1}{2} \times 4\frac{1}{4}$  (12 exp.) at Solatia Taylor's.

On way home collect.

Smile Wm's heat a while with him. Miss Wheeler is worse & Mrs. W. has gone back again.

This P.M. busy with Shakespeare piece mainly.

Auto'd to Fr. St. Roads to Shakespeare Club. Took Prof. Markers one way. Very pleasant time.

Small meeting, only 13.

Evening wonderful. Saw mercury between 6 to 30. The arch with moon inside it superb.

Dick & May left this A.M. for New York. May stays a while. Dick sail Sat. for England.

Clear as crystal all day.  
Snapping cold. 6° F before  
breakfast.

This morning I went over to  
Dorchester reaching the Judge's  
by 10 A.M. He worked over  
his plants, distributing mainly  
his nos. ones of 1918, looking  
critically at the Caricac. We  
kept it up steadily till 9 P.M.

I saw Mrs. C. & Anna. Winslow  
came in the P.M. It was a  
busy, pleasant day.

The slope on Percival St.  
at the foot was so slippery  
with shining, jagged ice that  
a policeman let me  
cling to him on the  
descent!!

I reached home by 10 P.M.  
quite ready to sit a while  
by the open fire and then  
go to bed.

The heavens were wonderful.

Clear, above freezing at  
midday - Calm.

At home except for  
a walk to & from Howard  
Square at noon. I went  
into the new Post Off. for  
the first time, in Brattle  
Square. Visited Camb.  
Thurst. Coop, & I en-  
joyed the walk each way.  
I walked in the road  
while it was pure white &  
quite hard. The autos  
hardened the roads. This  
is on Brattle St. The  
surface is even higher  
than the sidewalks.

I have had the desk  
in the Library moved  
into my study to-day,  
and I shall try it in  
place of my desk. It  
was advantageous though  
I shall miss certain  
features -

Clear mild calm.

Busy at home this morning arranging the new desk. I think I shall like it though it lacks some features, like the sliding board, and certain shallow drawers.

This afternoon I called on Mary and saw her and George for some time. Then I called at May Dexter's who returned yesterday from New York. She told me of her good times. Dick sailed yesterday morning for England. Last evening & this evening I have read almost Mackay's "Rose and the Ring" and shall finish it tomorrow. On Thursday is a performance of this at Beetham Hall by Tony Sang's marionettes.

Clear and warm,  
melting fast a foot  
of solid ice on the  
streets in many places.

I walked over to the  
St. Alb. after breakfast  
and worked till 12:45

with B. & R.

In P.M. worked on  
Local Flora proof and  
also on manuscript for  
a new paper.

This evening I read  
about and finished  
Thackeray's *Rose and

Tom Ticknor.

This P.M. Miss B. & I went  
to Bvattle Hall to the  
marionettes of Tony Sarg  
in Thackeray's "The Rose

marvelous performance  
showing the technique of  
manipulation in its  
highest degree. The figures  
were copied from the  
illustrations in Thackeray's  
work and the skillful  
working was beyond words.

Afterwards I called on B. & R.

 This Am. Largely disap-  
 peared during the day -  
 Clear, cool.

At home A. M. & P. M.  
 made out Shakespeare re-  
 cords, wrote letters, etc.

This evening I dined  
 with J. M. Hummell at  
 his father's on 261 Commonwealth  
 Ave. Boston. Met Mr. Mrs.  
 Walter Hummell. We had  
 a very pleasant social  
 time till 7:45 when  
 Hummell & I went over  
 to the Boston Soc. Nat. Hist.  
 and heard Dr. C. H. Townsend  
 Director New York Aquarium  
 on Aquaria. The extent,  
 methods, the work entailed.  
 The systematized organization  
 everything was remarkable.  
 The colored views of all these  
 details including views of people  
 in tanks were astonishing.

Clear & cloudy, cold, with sudden snow squalls, blustering wind. Patches of frozen snow on the ground.

This morning Charlie Hatch elder came up with a bundle of plants from S. N. H. & elsewhere and we worked on this much of the morning.

This afternoon I got the Shakespeare notices for April 20 ready and finished them in the evening. No more till fall!!!

This P.M. I called on the Williams<sup>s</sup> and saw Emile.

The evening is very clear and cold. Mars, Saturn, and Jupiter are well in view.

Affairs in Europe are very strained and the end is far away. I shall never see peace there.

Clear bracing below  
freezing this early Am.

to the Sq. and round  
to the Gv. Hb. Left a  
few plants with Miss  
Creston. Met Mr  
MacKenzie of New York  
and had a good talk  
with him. Found that  
*Rubus vermontanus* need  
not have prickles on  
the pedicels -

Got home this P.M.  
J.R.C. came out to  
tea and after tea B.L.

At home Sun. & Mon.,  
writing letters, working  
on Rebus, and resting.

This evening Geo. & I  
walked down to the Dan-  
nyc's Club's last per-  
formance. "Bunty pulls  
the strings" It was a  
very interesting perform-  
ance to me. Arthur  
Nichols and Arthur  
Howard with his daugh-  
ter & two sons were all  
on the stage. Mrs. Arthur  
Pope, as "Bunty", was very  
good, she being Scotch.  
Her accent was fascinating.

After the play I arranged  
with the Ford twins to come  
over here Monday, 3 P.M.  
to see my Herb coming. We  
walked home - Heavens fine.

Clear, calm, mild  
 Sun still in patches.  
 One patch some 2 ft.  
 high lies between # 31  
 & # 33 at the back in  
 much shade.

This morning I fin-  
 ished my last letter  
 till news come.

This P.M. George & I  
 walked to Fresh Pond

Cloudy, chilly -

Snow still about here

At home to-day -

I have felt tired and  
not up to the mark.

We worked over a number  
of old letters, many of  
which were destroyed,  
and read the maga-  
zines in my arm chair.

Telephone calls take  
up a good deal of our  
time.

I lay down & read this  
afternoon -

I am not as strong  
as I was, and I must  
realize it - I tell  
I have many resources  
to fall back upon.

I did a bit of work on  
my Rubus to-day. I  
can see how one can  
get deeply interested in it.  
I have left it, heretofore.

Mary & George into the country  
about Waltham, nature is  
at her best and smiling.  
A yellow warbler where we  
stopped was singing, a King  
Bird was catching insects, an  
Ovenbird sang, and a Barn Swal-  
low darted by.

This afternoon I walked  
down to Prof. Willson's, but he  
is not well. I saw Mrs W. I  
returned a book in the library  
to me by Shaker. For the summer  
I went to the Widener Library

some time by an open fire  
I am very fond of him.

Then I came to supper.

Evening at home  
plants, writing, reading  
talks, over the phone  
etc.

Sunlight clouds, very nice.  
 I have spent much  
 time this M. & P.  
 in stamping & distributing  
 a lot of Y.R.C.'s Missouri  
 plants. I have a fine  
 lot of several hundreds  
 of them.

This evening I took  
 George to the Copley  
 Theatre where we saw  
 the Henry Jewett Players  
 in Lady Frederick.  
 The house was filled  
 and the acting was  
 remarkably well done.  
 The interest grew through  
 out and the only trouble  
 was ~~that~~ especially  
 during the first half  
 they talked too low.  
 We were only 5 rows back.  
 They are skillful actors.  
 We don't get home  
 till nearly 11:30 -

(another perfect day sunny,  
mild, beautiful new moon

This morning I finished  
distributing J.R.C.'s two plants  
a fine lot.

I read some after dinner  
in "Les Misérables" and then  
I walked down to Scott St.  
and made a very satisfactory  
call on Mrs. Kesselhoft &  
Miss Hewitt. Dr. W. died  
last summer at Sand-  
wich, Mass. It is a blessing  
that his long illness  
should be quietly ended  
as it was in the summer  
home by the ocean.

Then I called at the  
Chaplain, but the house was  
closed. I left my card  
under the door - I re-  
turned to supper.

Evening at Comen's  
treating. I shall have

sun & cloud mild.

A pleasant day.

This Am. I went to the P.O. and re-ordered the P.O. Official Guide & Supplements as they sent me word from Wash. that the price was more than I cost.

I spent a little while at home putting onto the mounting sheets the last of the Shelburne place just out of press. Pyrus americana fruit is hard to manage.

I rested also, feeling a sort of cold all over.

In evening 9, I went down to C.F.B.'s to Knottall Club. Judge Walcott reported on the progress in regard to incorporating the Club. It will be some ere long. Kenneth read a letter from Owen Duffer who through blood poisoning has lost a leg above the knee!

A wonderful day —

I have been busy today  
in my herbarium arranging  
my duplicates and naming  
some inserendae, &c.

I received to-day from A.C. Sprague  
a good bunch of black spruce  
stems & cones with seeds from  
tips of Succas, coll. by him on the  
20<sup>th</sup> and some ripe cones &  
branches of white spruce from  
the tree behind Leighton barn  
coll. on the 17-19<sup>th</sup>. The cones had  
ripe seeds. I thought the latter  
tree was burned when the barn  
was burned. He also sent some  
young sprouts of Epipactis  
from Succas's summit.

I took a short walk toward the  
Stadium this P.M. and saw the  
crowd, &c. Harvard beat Centre

Clear & cloudy mild.

This Am. I was busy as usual. I took papers to the mail (Horn Road over) and then walked over to the Riddles left things there. Got talk with Mrs. Riddle. Her husband about the same

This P.M. Took things. Went to the Smertons, Chapmans and Allews.

This evening I took George to the Grand Temple to the famous movie "Down East". It was an astonishing piece of work. The various country scenes were exquisite and the thrilling ice jams and breaks was astonishing. They were taken from the Coum R. ice and Niagara - Dramatic in the extreme. Home late.

Clear cold.

This morning I walked  
round the St. Joseph's Emulsion  
and left some envelopes  
sprays for Clara. They  
will be taken there to-morrow.

I spent a good while  
to-day over my annual report  
with the Shakespeare Club.

More Greenman came  
up at 6 P.M. and we  
had tea together and  
then he & I went in to  
Beacon Hill to see the  
illuminations and to  
hear the carols. The  
moon was full and the  
air calm and crisp  
and the sight was very  
fine and the carols  
very interesting. We got  
back by 9.45.

Miss B. & I walked out a bit  
to see lights and had a nice  
call on the Parkers, Fine aquarium.

Clear, calm, cold.

At home this A.M. except for a call on the Howes. Busy with my cards & books &c.

George called.

I dined with Lucy & May at 1.15 and we a pleasant talk. At 4 P.M. I went up to George & Mary and we distributed our gifts and received those from Chicago - We had a very pleasant quiet time.

I have a great many cards from friends over 100 already. For more will come on Monday - I have books, &c, &c.

Miss Brown in the late P.M. went over with her bro. to Riverside in her auto & dined & spent the evening with a bright & noisy crowd. Wonderful full moon.

Very, very pleasant.

Also Mrs. Maurice -  
she talks broken English  
and knows well the  
inhabitants of Lancaster.

The rest of the day  
has been spent at  
my desk carefully and  
in going over a bundle  
of plants from V.H. Chase,  
Peoria Ill. which he thinks  
Macdonald had meant for me  
before he died. There are  
85 sheets of real nice plants  
which I shall value much.

Snow cloud, bleak.

At home all day.  
Spent most of the  
time writing Xmas  
letters, many cards  
came this morning.  
Telephoning with  
Jane & Brown in  
regard to the next  
meeting. All is still  
uncertain. Time Jan 4.  
Brown may arrange  
with Walter Hampden  
to give a spirit talk  
and then appear to  
the theatre and see  
him act. Shall  
know to-morrow.  
I have promised to a  
no. of friends' mail  
Christmas cards  
I have written just  
to those who sent gifts  
other than cards,  
Pleasant but onerous.

Mr & Mrs Brown were there. I

Mrs. Brown called  
soon after and we were  
not a notice of the supper  
for Jan 4. I printed it and he  
went to lunch and took  
the paper to the servant.

I rested some and after  
supper I went in to  
The Arlington Theatre and  
saw a running of the screen  
with Walter Hampden as  
Pelouchio, and Mary Hall  
as Katherine. Pelouchio  
was conceived as a clown  
and it was a very dif-  
ferent kind of character  
from usual. I was im-  
mensely interested, and  
I do not agree with the  
criticisms in the Herald

Knollin came at 3:15  
and we worked on a  
local Flora paper till  
about 8:30. We are  
anxious to finish it.

There is much more to  
do, we have reached  
the Umbelliferae -

I have been doing a  
lot of telephoning in  
regard to the supper  
and play for Jan 4,  
there is a lot to  
arrange.

May Dexter called  
this morning and  
looked at my cards

## WARREN A. LOCKE DIES IN CAMBRIDGE

*Boston Herald, Jan. 17/1920.*

Once Harvard and St. Paul's  
Chorister and Organist

*— Died Jan. 16 —*

Warren A. Locke, for 31 years organist at St. Paul's Cathedral, who resigned from that position last Easter, died yesterday afternoon at his home at 59 Brattle street, Cambridge. He was born in Charlestown in 1847, graduated from Harvard in the class of 1869, and received the degree of A. M. three years later. For five years following his graduation from college he was master at St. Mark's School, Southboro. He then went abroad to study music, remaining in Germany four years. While there he was married to Miss Madeline Weidemann.

In 1888 he assumed charge of the music at St. Paul's Cathedral, and at the same time became organist and choirmaster at Appleton Chapel. He has also been director of the Harvard glee clubs, and for some time was co-director of the Harvard Anniversary Chorus. He was a member of the Harvard Musical Association and was one of the founders of the American Guild of Organists. He was also a member of the Harvard and Oakley Country clubs.

Mr. Locke is survived by his widow and three sons, Charles W. Locke, an instructor at the Middlesex school, Concord; Arthur W. Locke, instructor of music at Smith College, and Bradford B. Locke, associated with the Church Pension Fund, New York city.

 Conduct Services for Former Organist of  
 St. Paul's Cathedral Jan. 19/1920.

*Boston Transcript* 1/20/20

Funeral services for Warren A. Locke, formerly for many years the organist of St. Paul's Cathedral, were held Sunday afternoon at that church and were at-

tended by many of the parishioners and friends. Bishop Lawrence officiated and assisting him was Dean E. S. Rousmaniere, D.D. All the staff of the Cathedral also were present. The music was in charge of Earl Weidner, by the special request of Mr. Locke, whose assistant Mr. Weidner had been for seven years. Before the service he played the allegretto from the Beethoven "Seventh Symphony" and Handel's "Largo" at the close of the service. The vested choir of the Cathedral sang as a processional "The Strife is O'er," and for the recessional "Ten Thousand Times Ten Thousand." For the anthem the choir sang "Souls of the Righteous," by Foster.

The pallbearers were Rev. Francis G. Peabody, D.D., William S. Hall, Dr. Robert M. Lawrence, and Henry G. Pickering, Mr. Locke's Harvard, '69, classmates; and Samuel J. Fowler and Albert M. Barnes.

Those acting as ushers, all personal friends, were Lyman G. Smith, chief usher; George A. Burdett, Herbert Darling, Edward S. Dodge, Courtenay Guild, M. A. DeWolfe Howe, Byron S. Hurlbut, Homer B. Richardson and Charles L. Moore.

The body was taken to the Cambridge Cemetery for burial.

Bost. Times. — WARREN A. LOCKE — Jan. 21 / 1920

Warren A. Locke, for nearly thirty years organist and choir-master of St. Paul's Church and Cathedral, passes away and leaves to the many who knew him the memory of a character of rare qualities and of an inspiring nature. An organist of accomplishment and catholic taste, a choir-master of gentle though firm nature, of a musical enthusiasm which aimed at high ideals of simplicity and good taste and shunned the ornate and the theatrical—these qualities and more marked him a musician of high purpose. But those of us—and we are many—who knew him well recall the memory of one simple in his life, upright in the living of it, warm and sincere in his friendships, tolerant of others, lovable in his nature. A man with many friends, he had absolutely no enemy. Man, who so easily condemns in criticism, finds in him nothing not admirable. And he, in turn, found only the best in others. When he could not speak good, he was silent. No individual can live seventy-two years on so high a plane and not inspire others to live a little better. So, not only as a musician who carried high the standard of church music, but truly as a man of God will he linger gladly in memory.

## RECENT DEATHS

### A NEW YORK BUSINESS MAN

**John W. T. Nichols Was a Native of Cambridge but Had Removed to the Metropolis Thirty Years Ago**

John W. T. Nichols, a former Boston business man, but for a number of years in business in New York city, died Sunday of heart disease at his home at 42 West 11th street. Mr. Nichols was a native of Brighton, and the son of the late George Nichols, a man of literary tastes and ability, and Susan Farley Treadwell. He was sixty-seven years of age, and during the early part of his life was in the dry goods commission business in Boston, removing about thirty years ago to New York, where he had long been connected with the house of Minot, Hooper & Co., which also has Boston quarters at 110 Summer street, and these local offices were frequently visited by Mr. Nichols in the course of business. He was an extensive traveler and had made several trips through Asia Minor and the Balkans.

Mr. Nichols was a member of the Union Club in Boston, and of the Merchants' Club, the Century Association, and the Explorers' Club in New York. He is survived by his wife, who was Mary Blake Slocum of Boston, and six children, all of whom reside in New York.

COMPTROLLER OF HARVARD

Frederick S. Mead, '87, Appointed to the Position—Affairs at the University

Frederick S. Mead, '87, has been appointed comptroller of Harvard University in the place of Francis W. Hunnewell, '02, who has resigned to give his full attention to his duties as the secretary of the corporation. The position of comptroller includes the general supervision of the budget and expenditure of the university. Hitherto this position has been combined with that of one of the two secretaries of the corporation, but as the affairs of the university are increasing noticeably every year, it was decided to create a separate position. Mr. Mead's appointment takes effect on Nov. 1.

As the editor of the Harvard Alumni Directory and the supervisor of the war records office of the university, Mr. Mead has been actively interested in the affairs of the university. He will continue in the latter position until next spring when it is expected the rolls of the Harvard war records will be completed. He will remain in his office at the Harvard Union during this year.

# TO EAT COLONIAL DINNER AT HARVARD

*Boston Herald* 8/920  
*Dec. 8/920*

## Gov. Coolidge Among Guests at Massachusetts Hall

A wholesome dinner of colonial days will be served to Vice-President-elect Coolidge, President Lowell and others who attend the bi-centennial of Massachusetts Hall, to be celebrated in that edifice Friday night. Massachusetts is the second oldest college building in the United States.

Scalloped oysters, Boston-baked beans, Virginia sugar-cured ham, boiled potatoes, pumpkin pie, suet pudding with hard sauce and crackers and cheese will be served. This is an attempt of the Harvard Memorial Society to duplicate to some extent a dinner of 200 years back.

The table will shine with old silverware given to the college from time to time since earliest days. The oldest piece in the display will be a big salt shaker given by William Harris, the brother-in-law of President Dunster, in 1644. There will also be a large cup given in 1760 by Lt.-Gov. Stoughton, who built the Harvard dormitory which bears his name, and a silver bowl which belonged to President Holyoke.

A number of graduates who lived in Massachusetts Hall in the days when it served as a dormitory are expected at the dinner. Prof. Edward Channing of the history department, President Lowell and Gov. Coolidge will speak. William C. Loring, who lived in the dormitory, will be toastmaster. Judge Robert Grant will read a poem composed for the occasion.

# HALL AT HARVARD IS 200 YEARS OLD

*Sunday Herald, Nov. 28/20*

Dinner Dec. 10 to Celebrate  
Massachusetts's 2d Centennial

---

Massachusetts Hall at Harvard, the second oldest college building in the country, is 200 years old this month, and on Friday, Dec. 10, its second centennial will be celebrated at a dinner to be held in the building itself by the Harvard Memorial Society.

Vice-President-elect Coolidge will be present to represent the commonwealth, the building having been originally constructed from a grant made by the Province of Massachusetts. President Lowell will also speak, and Judge Robert Grant, president of the Harvard board of overseers and author of "The Chippendales" and other novels, will read a poem composed for the occasion. The toastmaster will be Hon. William Caleb Loring, '72, who roomed in the hall as a student.

All men who roomed in Massachusetts Hall when it was a dormitory, prior to 1870, are especially invited to subscribe to the dinner, as are all present and former members of the Harvard Memorial Society, at \$3 per person. Other graduates may also subscribe by applying to Hamilton MacFadden, 18 Francis avenue, Cambridge.

In 1720, when Massachusetts Hall was built, the graduating class of the college numbered 37, Cambridge was only a village, and there was no bridge to connect it with the town of Boston. The only college building in the United States which is older than Massachusetts Hall is the main building of William and Mary College in Virginia, which was put up in 1693 and has been thrice burned and rebuilt on the old walls.
